

Hand Sanitizer

Made in New Orleans by Atelier Vie

- Our hand sanitizer is produced according to the World Health Organization (WHO) formula and Food & Drug Administration (FDA) guidance.
- Our production has been registered with the FDA and our label includes a standard Drug Facts section with instructions for use and ingredients.
- This is a liquid sanitizer and only a small amount is needed for use. Rub on hands until the product has evaporated.
- This sanitizer has been made from beverage grade ethanol. A bittering compound has been added to denature the ethanol, per Federal requirements. For external use only!
- This sanitizer is 80% ABV, and is 750ml per bottle, 12 bottles per case.
- Contact jedd@ateliervie.com with any questions.
